The Fund achieves its investment objectives by investing in a conservative portfolio consisting principally of large capitalization equity securities selected from the S&P 100 Index with a beta of less than 1.0. Beta is a financial term used as a measure of a security’s or a portfolio’s return in relation to the market. A beta of less than 1.0 indicates that the price of a security will generally vary to a lesser extent than the movement of the market and a beta of greater than 1.0 indicates that the price of a security will generally vary to a greater extent than the movement of the market.

The Fund employs a proprietary investment strategy, Strathbridge Selective Overwriting (“SSO”), to enhance the income generated by the portfolio and to reduce volatility. In addition, the Fund may write cash covered put options in respect of securities in which it is permitted to invest.

The Fund’s investment portfolio is managed by its investment manager, Strathbridge Asset Management Inc. The Fund’s units are listed on the TSX under the symbol LVU.UN.
