

Hybrid Income Funds

Semi-Annual Report 2003

Mulvihill Premium Canadian Fund

First Premium Income Trust

Message to Unitholders

As of June 30, 2003, the net assets of the Fund were up to \$122.2 million, or \$19.86 per unit, a 4.7 percent increase from \$18.97 per unit at the end of 2002. In addition, a total of \$1.00 per unit was distributed during the period, in the form of two regular quarterly payments of \$0.50 each. The Fund's units, listed on the Toronto Stock Exchange as FPI.UN, closed on June 30 trading at \$18.85.

The Fund has sufficient capital loss carryforward amounts to shelter realized gains in the current period and provide capital loss carryforwards for future periods. As a result, distributions in the current period were non-taxable and will reduce each unitholders cost base.

After revisiting multi-year lows in the first quarter of 2003, equity markets in both Canada and the U.S. rallied in the second quarter. While this rising trend and the relative stability of the economy through the period served to enhance the NAV of the fund, reduction in market volatility impacted the use of option writing. Given stronger equity markets, the Fund has limited its option-writing activity and has increased its invested position to take advantage of rising share values. The portfolio has approximately 20 percent of its investments in the strengthening health care and information technology sectors, and another 30 percent in financial services.

The balance of the Fund continues to be invested in a diverse portfolio of Canadian equities, many of which are now showing significant growth potential.

We would like to take this opportunity to thank each of the Fund's unitholders for their continuing support.

August 2003

. Basis of Presentation

he interim financial statements for First Premium Income Trust (the Fund") have been prepared in accordance with Canadian general-accepted accounting standards ("GAAP"). However, not all disosures required by GAAP for annual financial statements have een presented and, accordingly, these interim financial stateents should be read in conjunction with the most recently preared annual financial statements for the year ended December 31, 002.

hese interim financial statements follow the same accounting polies and method of application as the most recent financial stateents for the year ended December 31, 2002.

. Normal Course Issuer Bid

he Toronto Stock Exchange recently accepted a normal course suer bid filed by the Fund. Under the terms of the normal course suer bid, the Fund proposes to purchase, if considered advisable, p to a maximum of 631,383 units, 10% of its public float as deterined in accordance with the rules of the Exchange. The purchases ould be made in the open market through facilities of the xchange. The normal course issued bid will remain in effect until e earlier of April 27, 2004 or until the Fund has purchased the aximum number of units permitted under the bid. As at June 30, 003, no units have been purchased by the Fund.

nitholders may obtain a copy of the Notice of Intention to make a ormal course issuer bid, without charge, by writing to Mulvihill vestors Services at the address below.
