MCM Split Share Corp.

Mulvihill Premium Split Share Fund

Message to Shareholders

We are pleased to present the semi-annual financial results of MCM Split Share Corp., which operates as Mulvihill Premium Split Share Fund (the "Fund").

The following is intended to provide you with the financial highlights of the Fund and we hope you will read the more detailed information contained within the report.

The Fund was launched in 1998. On December 12, 2007, a proposal was approved by shareholders resulting in a change of the investment objectives of the Fund. The Fund's investment objectives are to:

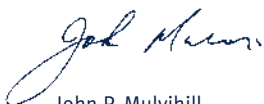

- (1) Provide Priority Equity shareholders with quarterly cash dividends to yield 5.50 percent per annum based on the original issue price;
- (2) Provide Class A shareholders with quarterly dividends in an amount initially targeted to be 10 percent per annum of the net asset value of the Class A Shares from time to time; and
- (3) Return, at a minimum, the original issue prices of the shares to shareholders upon windup on February 1, 2013.

During the six-month period ended July 31, 2009, the total return of the Fund was negative 0.70 percent. Distributions amounting to \$0.42 per Unit were paid during the six-month period, contributing to an overall decline in the net asset value from \$15.29 per Unit as at January 31, 2009 to \$14.76 per Unit as at July 31, 2009.

The longer-term financial highlights of the Fund are as follows:

	July 31, 2009	Years ended January 31				
		2009	2008	2007	2006	2005
Total Fund Return	(0.70)%	(20.22)%	(1.53)%	3.28%	10.76%	1.40%

Results of Operations

For the six-month period ended July 31, 2009, the net asset value of the Fund for pricing purposes based on closing prices was \$14.76 per Unit (see Note 3 to the financial statements) compared to \$15.29 per Unit at January 31, 2009.

The Fund's Priority Equity shares, listed on the Toronto Stock Exchange as MUH.PR.A, closed on July 31, 2009 at \$14.25 per share. The Fund's Class A shares, listed on the Toronto Stock Exchange as MUH.A, closed on July 31, 2009 at \$0.16 per share.

Distributions totalling \$0.4125 per share were made to the Priority Equity shareholders during the first six months of the fiscal period, maintaining at least a 5.5 percent yield based on the initial issue price of the shares. Distributions totalling \$0.0075 per share were made to the Class A shareholders.

The U.S. dollar was generally weak against the Canadian dollar and the Fund actively hedged its U.S. dollar exposure during this period. Currently the Fund has no exposure to the U.S. dollar as all cash and cash equivalents are in Canadian dollars.

The S&P/TSX 60 Index total return for the six months ended July 31, 2009 was 27.16 percent. The best performing sector was the Financials sector while the weakest sector was Telecommunications. In terms of foreign markets the S&P 100 Index had a total return of 4.38 percent in Canadian dollar terms.

Over this six-month period the total return of the Fund in Canadian dollars, including reinvestment of distributions, was negative 0.70 percent. Since April 2009, the Fund has been invested entirely in cash and cash equivalents due to the "Priority Equity Portfolio Protection Plan", resulting in underperformance of the Fund.

For more detailed information on the investment returns, please see the Annual Total Return bar graph on page 7.

Management Fees

Mulvihill Capital Management Inc. (“MCM”) is entitled to fees under the Investment Management Agreement calculated monthly as 1/12 of 1.15 percent of the net asset value of the Fund at each month end, excluding the Redeemable Priority Equity share liability. Services received under the Investment Management Agreement include the making of all investment decisions and the writing of covered call options in accordance with the investment objectives, strategy and criteria of the Fund. MCM also makes all decisions as to the purchase and sale of securities in the Fund’s portfolio and the execution of all portfolio and other transactions.

Mulvihill Fund Services Inc. is entitled to fees under the Management Agreement calculated monthly as 1/12 of 0.10 percent of the net asset value of the Fund at each month end, excluding the Redeemable Priority Equity share liability. Services received under the Management Agreement include providing or arranging for required administrative services to the Fund.

Recent Developments

The Fund adopted a strategy (the “Priority Equity Portfolio Protection Plan”) to protect holders of the Priority Equity Shares by assisting the Fund with the payment of the original issue price of \$15.00 per share on the termination date. The Priority Equity Portfolio Protection Plan provides that if the net asset value of the Fund declines below a specific level, the Fund will liquidate a portion of its portfolio and use the net proceeds to acquire (i) qualifying debt securities or (ii) certain securities and enter into a forward agreement (collectively, the “Permitted Repayment Securities”) in order to cover the Priority Equity Share Repayment Amount in the event of further declines in the net asset value of the Fund. To qualify as Permitted Repayment Securities, debt securities must have a remaining term to maturity of less than one year and be issued or guaranteed by the government of Canada or a province or the government of the United States, or be other cash equivalents with a rating of at least R-1 (mid) by DBRS or the equivalent rating from another rating organization.

Under the Priority Equity Portfolio Protection Plan, the amount of the Fund's net assets, if any, to be allocated to Permitted Repayment Securities (the “Required Amount”) will be determined such that (i) the net asset value (“NAV”) of the Fund, less the value of the Permitted Repayment Securities held by the Fund, is at least 110 percent of (ii) the Priority Equity Share Repayment Amount, less the amount anticipated to be received by the Fund in respect of its Permitted Repayment Securities on the Termination Date.

Mulvihill Premium Split Share Fund

Management Report on Fund Performance

Due to the above strategy to protect the Priority Equity shares the Fund is entirely in cash and cash equivalents. The Priority Equity shares have residual risk now, since they will be expected to cover expenses of the Fund in future years.

Past Performance

The chart below sets out the Fund's year-by-year past performance. It is important to note that:

- 1) the information shown assumes that all distributions made by the Fund during these periods were reinvested in the Fund,
- 2) the information does not take into account sales, redemptions, distributions or other optional charges that would have reduced returns, and
- 3) the past performance of the Fund does not necessarily indicate how it will perform in the future.

Year-By-Year Returns

The bar chart below illustrates how the Fund's total return for each of the past ten years as well as for the six month period ended July 31, 2009 has varied from period to period. The chart also shows, in percentage terms, how much an investment made on February 1 in each year would have increased or decreased by the end of that fiscal year, or July 31, 2009 for the six months then ended.

Independent Review Committee

On September 19, 2006, the Canadian Securities Administrators approved the final version of National Instrument 81-107 - Independent Review Committee for Investment Funds (“NI 81-107”). NI 81-107 requires all publicly offered investment funds to establish an independent review committee (“IRC”) to whom the Manager must refer conflict of interest matters for review or approval. NI 81-107 also imposes obligations upon the Manager to establish written policies and procedures for dealing with conflict of interest matters, maintaining records in respect of these matters and providing assistance to the IRC in carrying out its functions.

In accordance with NI 81-107, the IRC became operational on November 1, 2007. Members of the IRC are Robert W. Korthals, Michael M. Koerner and Robert G. Bertram.

Forward-Looking Statements

This report may contain forward-looking statements about the Fund. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” or negative versions thereof and similar expressions. In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also forward-looking. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and economic factors.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to any divergence between what is anticipated and what actually occurs, including, but not limited to, general economic, political and market factors, interest and foreign exchange rates, global equity and capital markets, business competition, technology change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

The above-mentioned list of important factors is not exhaustive. You should consider these and other factors carefully before making any investment decisions and you should avoid placing undue reliance on forward-looking statements. While the Fund currently anticipates that subsequent events and developments may cause the Fund’s views to change, the Fund does not undertake to update any forward-looking statements.

Management's Responsibility for Financial Reporting

The accompanying financial statements of MCM Split Share Corp. (operating as Mulvihill Premium Split Share Fund) (the "Fund") and all the information in this semi-annual report are the responsibility of the management of Mulvihill Fund Services Inc. (the "Manager") and have been approved by the Board of Directors (the "Board").

The financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles and include certain amounts that are based on estimates and judgments. Management has ensured that the other financial information presented in this semi-annual report is consistent with the financial statements. The significant accounting policies which management believes are appropriate for the Fund are described in Note 2 of the annual financial statements for the year ended January 31, 2009.

The Manager is also responsible for maintaining a system of internal controls designed to provide reasonable assurance that assets are safeguarded and that accounting systems provide timely, accurate and reliable financial information.

The Audit Committee meets periodically with management and external auditors to discuss internal controls, the financial reporting process, various auditing and financial reporting issues, and to review the annual report, the financial statements and the external auditors' report. Deloitte & Touche LLP, the Fund's independent auditors, has full and unrestricted access to the Audit Committee and the Board.

The Fund's independent auditors have not performed a review of these Interim Financial Statements in accordance with standards established by Canadian Institute of Chartered Accountants.

Notes to Financial Statements

July 31, 2009

1. Basis of Presentation

The interim financial statements for the Fund have been prepared in accordance with Canadian generally accepted accounting standards (“GAAP”). However, not all disclosures required by GAAP for annual financial statements have been presented and, accordingly, these interim financial statements should be read in conjunction with the most recently prepared annual financial statements for the year ended January 31, 2009.

These interim financial statements follow the same accounting policies and method of application as the most recent financial statements for the year ended January 31, 2009.

2. Reduction in Value of Priority Equity Shares

Each Priority Equity Share is valued for financial statement purposes at the lesser of: (i) the original redemption value of \$15.00; and (ii) the net assets of the Fund, divided by the number of Priority Equity Shares outstanding. The net assets is equal to the difference between the aggregate value of the assets of the Fund and the aggregate value of the liabilities excluding Priority Equity shares of the Fund on a particular date and including the valuation of securities at bid price less \$1,000. As a result, the value of the Redeemable Priority Equity Shares was reduced by \$403,780 (2008 - nil). This reduction is reflected in both the carrying value in the Statement of Financial Position and the Statement of Operations and Deficit.

3. Net Asset Value

The Net Asset Value of the Fund is calculated using the fair value of investments using the close or last trade price (“Net Asset Value”). The Net Assets per unit for financial reporting purposes and Net Asset Value per unit for pricing purposes will not be the same due to the use of different valuation techniques. The Net Asset Value per unit at July 31 is as follows:

	July 31, 2009	Jan. 31, 2009
Net Asset Value (for pricing purposes)	\$ 14.76	\$ 15.29

4. Financial Instruments and Risk Management

The Fund’s financial instruments consist of cash, receivables, payables and investments. As a result, the Fund is exposed to various types of risks that are associated with financial instruments. The most important risks include interest rate risk, credit risk and liquidity risk.

Notes to Financial Statements

These risks and related risk management practices employed by the Fund are discussed below:

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of a financial instrument. The financial instruments which potentially expose the Fund to interest rate risk are the short term fixed income securities. The Fund has minimal sensitivity to changes in rates since securities are usually held to maturity and are short-term in nature.

Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Fund limits its exposure to credit loss by placing its cash and short-term investments with high credit quality government and financial institutions.

The following are credit ratings for short-term investments held by the Fund based on Standard & Poor's credit ratings as of July 31, 2009:

Type of Short-Term Investment	Rating	% of Short-Term Investments
Bankers' Acceptances Government of Canada	A-1	72%
Treasury Bills	AAA	28%
Total		100%

The following is the credit rating for short-term investments held by the Fund based on Standard & Poor's credit ratings as of January 31, 2009:

Type of Short-Term Investment	Rating	% of Short-Term Investments
Bonds	AAA	41%
Bankers' Acceptances	A-1	22%
Discount Commercial Paper	AAA	17%
Government of Canada Treasury Bills	AAA	16%
Province of Ontario Treasury Bills	AA	4%
Total		100%

The carrying amount of these investments represents their maximum credit risk exposure, as they will be settled in the short-term.

Liquidity Risk

Liquidity risk is the possibility that investments in the Fund cannot be readily converted into cash when required. The portfolio holdings of the Fund currently consist of cash and cash equivalents that can be easily disposed of.

Cash is required to fund redemptions. Shareholders must surrender shares at least 5 business days prior to the last day of the month and receive payment on or before 8 business days following the month end valuation date. Therefore the Fund has a maximum of 13 business days to generate sufficient cash to fund redemptions mitigating any liquidity issues.

5. Future Accounting Policy Changes

The Manager has developed a changeover plan to meet the timetable published by the Canadian Institute of Chartered Accountants (“CICA”) for changeover to International Financial Reporting Standards (“IFRS”). The key elements of the preliminary plan include disclosures of the qualitative impact in the 2010 annual financial statements, the disclosure of the quantitative impact, if any, in the 2011 financial statements and the preparation of the 2012 financial statements in accordance with IFRS with comparatives. The current impact, based on the Fund’s management’s understanding and analysis of IFRS on accounting policies and implementation decisions for 2010, will mainly be in the areas of additional note disclosures in the financial statements of the Fund and is expected to have no material impact on the net assets per unit of the Fund.
