Semi-Annual Report 1999 For the six months ended July 31, 1999

MCM Split Share Corp. Mulvihill Capital Management Inc.

TO SHAREHOLDERS OF MCM SPLIT SHARE CORP.:

MCM Split Share began operations on February 24, 1998. The Corporation's investment objectives are to provide both classes of shareholders with quarterly income distributions and to return the original issue price to shareholders at the termination date of February 1, 2008.

The target distribution rate for Class A shareholders is \$1.20 per annum, equivalent to an 8% yield on the original issue price of \$15.00. The target distribution for preferred shareholders is \$0.825 per annum, equivalent to a 5.5% yield on the original share price of \$15.00.

To accomplish these objectives, the corporation will invest in a diversified basket of blue chip equities from both the Canadian and US market. Income earned on the portfolio is further enhanced by writing covered call options.

For the six month period ending July 31, 1999, a distribution of \$0.70 was paid to the Class A shareholders consisting of a regular distribution of \$0.60 plus a \$0.10 special distribution. The preferred shareholders, over this time period, received \$0.429644 per share.

YEAR 2000

In conducting its business, the company utilizes the computer information systems of third party service providers, including Mulvihill Capital Management Inc. ("MCM"), Mulvihill Fund Services Inc. ("Mulvihill"), the Custodian and the Transfer Agent. The company is currently reviewing the potential Year 2000 readiness issues of its third party service providers and will determine what action, if any, is required. MCM and Mulvihill have advised the company that they have put in place a Year 2000 plan in an effort to ensure that their information systems are Year 2000 compliant by the end of September, 1999. None of the expenditures for the Year 2000 readiness plan will be borne by the company.

They have also made enquiries of the Custodian and Transfer Agent in order to assess the status of their information systems with respect to Year 2000 readiness issues. There can be no assurance, however, that the company's third party service providers have, or will have, information systems that are Year 2000 compliant. In addition, there is no assurance that the corporations that are included in the company's portfolio of investments will be Year 2000 compliant. If any such corporations are not Year 2000 compliant, the net asset value of the company could be adversely affected.
