Premium Income Corporation

Letter to Shareholders

We are pleased to present the 2014 semi-annual report containing the management report of fund performance and the unaudited financial statements for Premium Income Corporation.

Global equity markets advanced for the semi-annual period ending April 30, 2014 due to better than expected economic numbers in Europe as well as continued expectations that central banks would maintain low interest rates. For the six months ended April 30, 2014, the S&P/TSX Diversified Banks Index generated a total return of 8.4 percent, which underperformed the broader S&P/TSX Total Return Composite Index which was up 11.3 percent led by the Health Care and Information Technology sectors. The Canadian banks reported better than expected earnings during the period with each of the five banks within the portfolio raising its dividend during the period by an average of 4.9 percent.

The total return of the Fund, including reinvestment of distributions, for the six months ended April 30, 2014 was 8.0 percent. The Fund paid cash distributions of \$0.43 per Preferred share and \$0.41 per Class A share during the period. The net asset value of the Fund increased 3.9 percent from \$21.95 per Unit as at October 31, 2013 to \$22.81 per Unit as at April 30, 2014. The net realized loss on options attributable to Strathbridge Selective Overwriting strategy (see “The Fund”) amounted to \$0.01 per Unit for the period compared to a net realized loss on options of \$0.19 per Unit for the same period last year. For a more detailed review of the operations of the Fund, please see the Results of Operations and the Portfolio Manager Report sections.

We thank all shareholders for their continued support and encourage shareholders to review the more detailed information contained within the semi-annual report.

Chairman & CEO
Strathbridge Asset Management Inc.

The Fund

The Fund is a split share corporation designed to provide Preferred shareholders with cumulative preferential quarterly cash distributions of \$0.215625 per share, to provide Class A shareholders with quarterly cash distributions of \$0.20319 per share and to return the original issue price to holders of both Preferred shares and Class A shares upon windup of the Fund. A Unit of the Fund consists of one Preferred share and one Class A share. Once the net asset value (“NAV”) per Unit exceeds \$25.00, the Class A share distribution will vary based on 8.0 percent per annum of the NAV of the Class A share. The shares are listed on the Toronto Stock Exchange under the ticker symbols PIC.PR.A for the Preferred shares and PIC.A for the Class A shares. To accomplish its objectives the Fund invests primarily in common shares issued by:

- Bank of Montreal
- The Bank of Nova Scotia
- Canadian Imperial Bank of Commerce
- Royal Bank of Canada
- The Toronto-Dominion Bank

The Fund employs a proprietary investment strategy, Strathbridge Selective Overwriting (“SSO”), to enhance the income generated by the portfolio and to reduce volatility. In addition, the Fund may write cash covered put options in respect of securities in which it is permitted to invest.

The SSO strategy is a quantitative, technical based methodology that identifies appropriate times to write and/or close out option positions compared to writing continuously and rolling options every thirty days. This proprietary process has been developed over many years through various market cycles. The Manager believes the primary benefit to investors is to maximize the total return of the Fund while reducing the level of volatility of the portfolio, thereby increasing the risk-adjusted return.

Results of Operations

Distributions

For the six months ended April 30, 2014, cash distributions of \$0.43 per Preferred share and \$0.41 per Class A share were paid to respective shareholders, unchanged from the same period last year. Since the inception of the Fund in October 1996, the Fund has paid total cash distributions of \$15.31 per Preferred share and \$20.94 per Class A share.

Revenue and Expenses

The Fund’s total revenue was \$0.46 per Unit for the six months ended April 30, 2014, up \$0.02 per Unit compared to a year ago. Total expenses during the same period were \$0.13 per Unit, down \$0.02 per Unit from last year, primarily reflecting the non-recurring costs associated with the rights offering in November 2012. The Fund had a net realized and unrealized gain of \$1.37 per Unit in the first half of fiscal 2014 as compared to a net realized and unrealized gain of \$0.35 per Unit in the prior year.

Net Asset Value

The net asset value of the Fund increased 3.9 percent from \$21.95 per Unit at October 31, 2013 to \$22.81 per Unit at April 30, 2014. The aggregate net asset value of the Fund increased \$8.4 million, from \$214.0 million at October 31, 2013 to \$222.4 million at April 30, 2014, largely due to higher net gain on investments of \$13.4 million and improved net investment income of \$3.2 million, partially offset by cash distributions of \$8.2 million to Preferred and Class A shareholders during the period.

Recent Developments

There were no recent developments pertaining to the Fund during the semi-annual period ending April 30, 2014.

Future Accounting Policy Changes

Strathbridge Asset Management Inc. (“Strathbridge”), as the Manager of the Fund, has developed a changeover plan to meet the timetable published by the Canadian Institute of Chartered Accountants (“CICA”) for changeover to International Financial Reporting Standards (“IFRS”).

The changeover plan was prepared to address the requirements and includes disclosures of the qualitative and quantitative impact, if any, of the changeover to IFRS in the 2014 financial statements and the preparation of the 2015 financial statements in accordance with IFRS with comparatives. In January 2011, the Canadian Accounting Standards Board (“AcSB”) approved a two year deferral from IFRS adoption for investment companies applying Accounting Guideline 18 - Investment Companies (“AcG-18”). Subsequently, in December 2011, AcSB extended the deferral for another year to January 1, 2014. As a result, the Fund will adopt IFRS for its fiscal period beginning November 1, 2014 and will issue its first semi-annual and annual statements in accordance with IFRS, with comparative information, for the period ending April 30, 2015 and year ending October 31, 2015 respectively.

As at April 30, 2014, some anticipated changes to financial reporting include:

- Compliance with the full body of IFRS without industry specific exemptions. Unlike Canadian Generally Accepted Accounting Principles (“Canadian GAAP”) where investment fund accounting was based upon guidance in AcG-18,
- Changes to the presentation of shareholder equity to consider puttable instruments,
- Presentation of comparative information, and
- Additional financial statement note disclosures on the recognition and classification of financial instruments.

Based on the Manager’s current understanding and analysis of IFRS as compared to the accounting policies under Canadian GAAP, the Manager does not anticipate the transition to IFRS will have a material impact on the Fund’s net assets per Unit, nor systems and

processes, and it is expected that it will mainly result in additional note disclosure in the financial statements.

Related Party Transactions

Strathbridge, as the Investment Manager of the Fund, manages the investment portfolio in a manner consistent with the investment objectives, strategy and criteria of the Fund pursuant to an Investment Management Agreement made between the Fund and Strathbridge dated October 17, 1996 and amended as of October 8, 2010.

Strathbridge is the Manager of the Fund pursuant to a Management Agreement made between the Fund and Strathbridge dated October 17, 1996 and amended as of October 8, 2010. As such, Strathbridge is responsible for providing or arranging for required administrative services to the Fund.

Strathbridge is paid the fees described under the Management Fees section of this report.

During the period, no recommendations or approvals were required to be sought from the Independent Review Committee ("IRC") concerning related party transactions.

Management Report of Fund Performance

Independent Review Committee

National Instrument 81-107 - Independent Review Committee for Investment Funds (“NI 81-107”) requires all publicly offered investment funds to establish an IRC to whom the Manager must refer conflict of interest matters for review or approval. NI 81-107 also imposes obligations upon the Manager to establish written policies and procedures for dealing with conflict of interest matters, maintaining records in respect of these matters and providing assistance to the IRC in carrying out its functions. The Chief Compliance Officer, designated by the Manager, is in charge of facilitating the fulfillment of these obligations.

The IRC will prepare, for each financial year, a report to securityholders that describes the IRC and its activities during such financial year and includes, if known, a description of each instance when the Manager acted in a conflict of interest matter for which the IRC did not give a positive recommendation or for which a condition, imposed by the IRC, was not met in its recommendation or approval. Members of the IRC are Robert W. Korthals, Michael M. Koerner and Robert G. Bertram.

Management Fees

Strathbridge, as the Investment Manager of the Fund, is entitled to fees under the Investment Management Agreement calculated monthly as 1/12 of 0.80 percent of the net asset value of the Fund at each month end. Services received under the Investment Management Agreement include the making of all investment decisions and writing of covered call options in accordance with the investment objectives, strategy and criteria of the Fund. Strathbridge also makes all decisions as to the purchase and sale of securities in the Fund's portfolio and as to the execution of all portfolio and other transactions.

Strathbridge, as the Manager of the Fund, is entitled to fees under the Management Agreement calculated monthly as 1/12 of 0.10 percent of the net asset value of the Fund at each month end. Services received under the Management Agreement include providing or arranging for required administrative services to the Fund.

Past Performance

The following chart sets out the Fund's year-by-year past performance. It is important to note that the:

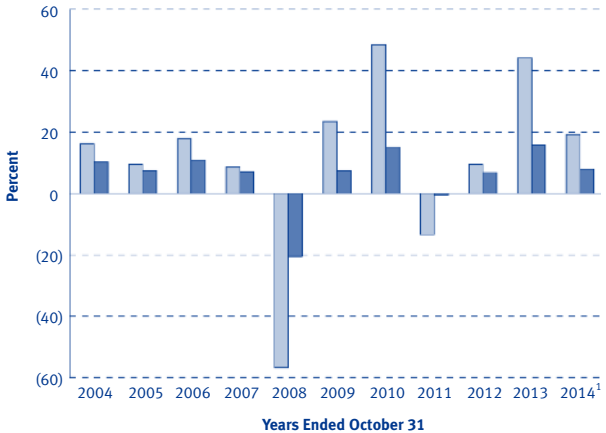

- (1) information shown assumes that all distributions made by the Fund during these periods were reinvested in Units of the Fund,
- (2) information does not take into account sales, redemptions, distributions or other optional charges that would have reduced returns, and
- (3) past performance of the Fund does not necessarily indicate how it will perform in the future.

Year-By-Year Returns

The following bar chart illustrates how the Fund's total return varied from year to year for each of the past ten years and for the six months ended April 30, 2014. The chart also shows, in percentage terms, how much an investment made on November 1 in each year would have increased or decreased by the end of that fiscal year or April 30, 2014 for the six months ended.

Portfolio Manager Report

Global equity markets advanced for the semi-annual period ending April 30, 2014 due to better than expected economic numbers in Europe as well as continued expectations that central banks would maintain low interest rates. Markets did pull back towards the end of January after it was reported that Russian troops were occupying Crimea, an autonomous republic of Ukraine, as well as after comments made by U.S. Federal Reserve Chair Janet Yellen that interest rates may rise sooner than expected. Ms. Yellen did come out soon after claiming her comments were misinterpreted which helped markets maintain a positive tone.

The Canadian banks reported first quarter earnings that were generally better than analysts' estimates due to low provisions for credit losses as well as strong wealth management revenues. Capital ratios remain strong with all the banks above the 8 percent minimum common equity Tier 1 ratio requirement commencing January 1, 2016. Each of the five banks in the portfolio increased its dividend during the period by an average of 4.9 percent, led by The Toronto-Dominion Bank which raised its dividend twice for a total increase of 10 percent over the period and also announced a 2-for-1 stock split when it reported its fiscal year 2013 earnings on December 5, 2013. The Bank of Nova Scotia recently announced it will acquire, for \$500 million, 20 percent of Canadian Tire Corp. Ltd.'s financial services business which has \$4.4 billion of credit card receivables. Finally, two banks announced a changing of the

guard during the period as Gord Nixon, Chief Executive Officer of the Royal Bank of Canada, will be replaced by Dave McKay in the summer of 2014 while Gerry McCaughey, President and Chief Executive Officer of the Canadian Imperial Bank of Commerce, will retire on April 30, 2016 with no successor named yet.

The total return for the S&P/TSX Diversified Banks Index for the period was 8.4 percent which underperformed the broader S&P/TSX Total Return Composite Index which was up 11.3 percent led by the Health Care and Information Technology sectors. All five banks in the portfolio experienced positive returns during the period with the Canadian Imperial Bank of Commerce and The Toronto-Dominion Bank posting the strongest total returns of 12.5 and 12.2 percent respectively, while the Bank of Montreal lagged the group with a total return of 6.2 percent. The total return of the Fund, including reinvestment of distributions, for the six months ended April 30, 2014 was 8.0 percent, roughly in line with the Diversified Banks Index. The Fund maintained its invested position during the majority of the period and ended April 2014 with a cash position of 1 percent, relatively unchanged from the prior year. Volatility for the Canadian banks continued to remain low for the period other than the brief spike in the latter part of January on the Russia-Ukraine geo-political tensions. The Fund was not very active in its selective covered-call writing activity with an average of 2.5 percent of the portfolio subject to covered calls during the period while the Fund ended April, 2014 with nil percent of the portfolio subject to covered calls.

Similar to 2013, the profitability of Canadian banks is likely to grow at a slower pace in 2014 due to decelerating consumer loan growth, lower net interest margins and volatile capital markets. However, in the context of low interest rates, the valuations of companies in the portfolio remain at attractive levels when measured by price to earnings ratios and current dividend yields and this should continue to act as major support for the share prices.

Notes to Financial Statements

April 30, 2014

1. Basis of Presentation

The semi-annual financial statements for the Fund have been prepared in accordance with Canadian generally accepted accounting principles (“GAAP”). However, not all disclosures required by GAAP for annual financial statements have been presented and, accordingly, these semi-annual financial statements should be read in conjunction with the most recently prepared annual financial statements for the year ended October 31, 2013.

These semi-annual financial statements follow the same accounting policies and method of application as the most recent audited financial statements for the year ended October 31, 2013.

2. Net Asset Value

The net asset value of the Fund is calculated using the fair value of investments at the close or last trade price. The net assets per Unit is calculated using the fair value of investments at the closing bid price. The net assets per Unit for financial reporting purposes and net asset value per Unit for pricing purposes will not be the same due to the use of different valuation techniques.

The difference between the net asset value per Unit for pricing purposes and the net assets per Unit reflected in the financial statements is as follows:

	April 30, 2014	Oct. 31, 2013
Net Asset Value per Unit (for pricing purposes)	\$22.8097	\$21.9451
Difference	(0.0028)	(0.0036)
Net Assets per Unit (for financial statement purposes)	\$22.8069	\$21.9415

3. Transaction Fees

Total transaction fees for the six months ended April 30, 2014 in connection with portfolio transactions were \$38,176 (April 30, 2013 - \$40,660). Of this amount \$7,389 (April 30, 2013 - \$13,898) was directed to cover payment of research services provided to the Investment Manager.

4. Financial Instruments and Risk Management

The various types of risks associated with financial instruments and the related risk management practices employed by the Fund remain unchanged from the prior year and are described in Note 11 of the annual financial statements for the year ended October 31, 2013.

The following is a summary of the inputs used as of April 30, 2014 in valuing the Fund’s investments carried at fair value:

Notes to Financial Statements

April 30, 2014

	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Total
Canadian Common Shares	\$ 219,828,634	\$ -	\$ -	\$ 219,828,634
Total Investments	\$ 219,828,634	\$ -	\$ -	\$ 219,828,634

The following is a summary of the inputs used as of October 31, 2013 in valuing the Fund's investments and derivatives carried at fair value:

	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Total
Short-Term Investments	\$ -	\$ 999,580	\$ -	\$ 999,580
Canadian Common Shares	212,262,436	-	-	212,262,436
Options	-	(849,196)	-	(849,196)
Total Investments	\$ 212,262,436	\$ 150,384	\$ -	\$ 212,412,820

There were no transfers between Level 1 and Level 2 during the six months ended April 30, 2014 and during the year ended October 31, 2013.

Other Price Risk

Approximately 99 percent (October 31, 2013 - 99 percent) of the Fund's net assets, excluding the Redeemable Preferred Share liability, held at April 30, 2014 were publicly traded equities. If equity prices on the exchange increased or decreased by 10 percent as at April 30, 2014, the net assets, excluding the Redeemable Preferred Share liability, of the Fund would have increased or decreased by \$22.0M (October 31, 2013 - \$21.2M) respectively or 9.9 percent (October 31, 2013 - 9.9 percent) of the net assets, excluding the Redeemable Preferred Share liability, all other factors remaining constant. In practice, actual trading results may differ and the difference could be material.

Credit Risk

The following are the credit ratings for the counterparties to derivative financial instruments that were authorized for trading with the Fund during the current period based on Standard & Poor's credit ratings as of April 30, 2014:

The Fund held no short-term investments at April 30, 2014.

The following is the credit rating for short-term investments held by the Fund based on Standard & Poor's credit ratings as of October 31, 2013:

Type of Short-Term Investment	Rating	% of Short-Term Investments
Bankers' Acceptances	A-1	100%
Total		100%

The carrying amount of these investments represents their maximum credit risk exposure, as they will be settled in the short-term.

5. Future Accounting Policy Changes

The Fund was required to adopt International Financial Reporting Standards ("IFRS") for the year beginning on November 1, 2011. In January 2011, the Canadian Accounting Standards Board ("AcSB") approved a two year deferral from IFRS adoption for investment companies applying Accounting Guideline 18 - Investment Companies. Subsequently, in December 2011, AcSB extended the deferral for another year to January 1, 2014. As a result, the Fund will adopt IFRS for the year beginning on November 1, 2014 and will issue its first semi-annual and annual statements in accordance with IFRS, with comparative information, for the period ending April 30, 2015 and year ending October 31, 2015 respectively.

Based on the Manager's current understanding and analysis of IFRS to the accounting policies under Canadian GAAP, the Manager does not anticipate the transition to IFRS will have a material impact on the Fund's net assets per unit, systems and processes, and it is expected that it will mainly result in additional note disclosure in the financial statements.
